

PERSONAL STATEMENT

I'm a video editor & title designer from Austria currently based in London. I love everything that has to do with film and video and the process of creating them. Trying my hand at different production steps, I was always drawn to post production.

Working with footage in an open and flexible way is an essential trait. Video editing is a process of constant decision making and guiding the audience. The emotional impact of timing is a powerful tool. I'm not afraid of changes in script, concept or tone when it benefits the final result. I believe this to be the most important task of an editor.

As a collaborative person I thrive on a variety of projects and am motivated by feedback and ideas from my peers. I love a new challenge, please don't hesitate to contact me about how I can support you on your next project.

Linz, Austria | September 2010 - February 2013

HOBBIES & INTERESTS

In addition to my interest in video and camera gear, I like to get away from the screen and do hobby photography outside, mostly of nature and animals.

Not only do I love listening to music, I also like to create sounds and soundtracks for video projects as a hobby and play keyboard to relax.
